Step 1

Set Up:

Spread the cards out colours side up. Ideally this should be in a grid.

Include the “No more multiples” card. Remove the zero card.

Step 2

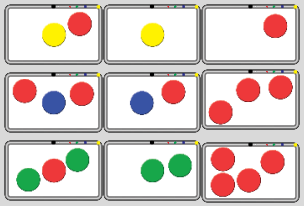

6	54
12	60
18	66
24	72
30	78
36	84
42	90
28	96

Choose a times table or number to find multiples of. E.g. If you choose the 6 times table, you need to find multiples of 6 each turn

6s

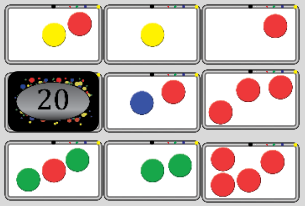

Step 3

Each Turn

Turn one card over

Check if it’s part of the 6 times table.

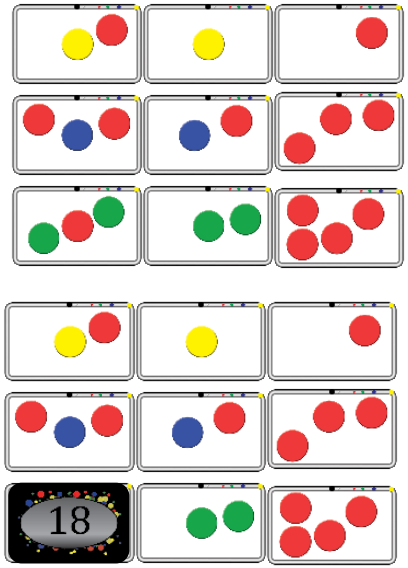

If it isn’t, turn it back over. It’s the next person’s turn.

Step 4

If it is in the 6 times table, you win the card.

Keep it and leave it colour side up next to you.
